DRIVER+ will seek to improve the way **capability development** and **innovation management** are tackled, by **testing** and **validating** (in realistic environments) **solutions** that are addressing the operational needs of practitioners dealing with Crisis Management.
FROM DRIVER TO DRIVER+
WHAT HAS BEEN IMPROVED?

1. A REVISED AND SIMPLIFIED PROJECT STRUCTURE
   Turning objectives into tangible results

2. A NEW LEADERSHIP AND CONSORTIUM MEMBERS
   Reinforcing the project team

3. AN OPEN AND INCLUSIVE APPROACH
   Enhanced involvement of external stakeholders
A PRACTITIONER-DRIVEN APPROACH
FROM SOLUTION-DRIVEN TO NEEDS-DRIVEN

In order to provide a European answer to the challenges Crisis Management is facing today and tomorrow, the involvement of as many concerned stakeholders as possible is essential.

The selection of solutions to be tested within DRIVER+, should be provided by current partners and external organisations to extend the knowledge base. The process should be neutral and transparent, and both the review and selection should be driven by the end-users.
THE OBJECTIVES

To develop a **pan-European Test-bed** for Crisis Management capability development

To develop a comprehensive **Portfolio of Crisis Management Solutions**

To facilitate a shared understanding in Crisis Management across Europe
OBJECTIVE 1: TO DEVELOP A PAN-EUROPEAN TEST-BED FOR CM CAPABILITY DEVELOPMENT
AN ARENA OF VIRTUALLY CONNECTED FACILITIES AND CRISIS LABS

1. Providing a pragmatic step-by-step guidance to conduct trials
2. Providing a reference implementation for all DRIVER+ trials
3. Providing general guidance and the technical infrastructure of the Test-bed to support the trials
4. Creating a demonstration infrastructure where stakeholders can collaborate in trialling and evaluating new tools, processes or organisational solutions
OBJECTIVE 2: TO DEVELOP A PORTFOLIO OF CRISIS MANAGEMENT SOLUTIONS
A DATABASE-DRIVEN ONLINE CATALOGUE

1. Documenting and presenting details on solutions tested and evaluated during the DRIVER+ Trials

2. Allowing for the introduction of third party solutions already used by practitioners or relevant to Crisis Management

3. Supporting the sharing of user experiences, and thereby, easing the successful implementation and usage of solutions for other practitioners
OBJECTIVE 3: TO FACILITATE A SHARED UNDERSTANDING IN CRISIS MANAGEMENT
ENHANCING THE COOPERATION FRAMEWORK

1. Building and structuring a dedicated Community of Practice in Crisis Management to facilitate identification of best practices and sharing of lessons learnt

2. Cooperating with CM experts, practitioners and solution providers external to DRIVER+

3. Organising I4CM events (Innovation for Crisis Management) that bring together solution providers practitioners at local/regional level and relay the Community of Users on European level

4. Developing new standards and/or contributing to ongoing and future standard development

5. Organising 3 Policy-Research Roundtables to exchange with policy-makers on project results and potential EU policy implications
