The 4th edition of the I4CM event organised by the DRIVER+ project has been designed for you and will be visiting Denmark in 2019. This event will provide a platform allowing practitioners, experts and solution providers from the region and beyond to meet and exchange best practices and lessons learned. Focusing on Volunteer Management in a crisis situation, with special attention being paid to issues around organised volunteers, spontaneous volunteers and psychosocial support. This event will also be the occasion to pave the way for the DRIVER+ fourth Trial to be organised in Styria (Austria) in September 2019 whose focus is on Volunteer Management.
