# OUTLINE

- DRIVER+ project
- CMINE, <https://www.cmine.eu/>
- Online demonstration
- Q&A

# WHAT DRIVER+ DELIVERS?

## Driving Innovation in Crisis Management for European Resilience

- Large EU-funded project, GA 607798, May 2014 – April 2020
- **Trial Guidance Methodology Handbook**
- a **Pan-European Test-bed** for Crisis Management Capability Building
- **Portfolio of Solutions**, many evaluated in DRIVER+ Trials
- Four trials (**wildfires** & cross-border cooperation; **multi-hazard**; **flood** & large scale logistics management; **earthquake** & volunteer management)

# DRIVER+ OUTCOMES

## Driving Innovation in Crisis Management for European Resilience

- **Rich content:** Trial Guidance Methodology Handbook, Portfolio of Solutions, List of Crisis Management gaps, ...
- **Extensive networks of stakeholders:** Four trials bringing together practitioners, solution providers, and researchers; a number of dedicated events
- **Bridge between CM communities** (e.g. Policy-Research Roundtable Dialogue, PRRD)
- **Facilitator of innovation** (Innovation for Crisis Management, I4CMs)
- **How to sustain the momentum?**

# CMINE

## CRISIS MANAGEMENT INNOVATION NETWORK EUROPE

- Online community **platform** & face-to-face meetings to **tackle challenges** and **facilitate the uptake of research and innovation**
- Evolving continuously to become a **pan-European platform**, an **“umbrella”** for projects, initiatives, specialised groups and networks, societies, ...
- Bringing together a diverse group of stakeholders **that would not normally interact with each other on a regular basis**

# CMINE'S ADDED VALUE

CMINE supports the Crisis Management community by:

- 
- Fostering multi-stakeholder & cross-sectoral interaction
  - Engaging members through a content-driven approach
  - Becoming a hub for Crisis Management Innovation in Europe
  - Providing visibility & networking opportunities to the CM community

# SELF-ORGANISING VIA THE CMINE PLATFORM

## FIRST CMINE THEMES

Volunteer Management

Wildfires

Floods

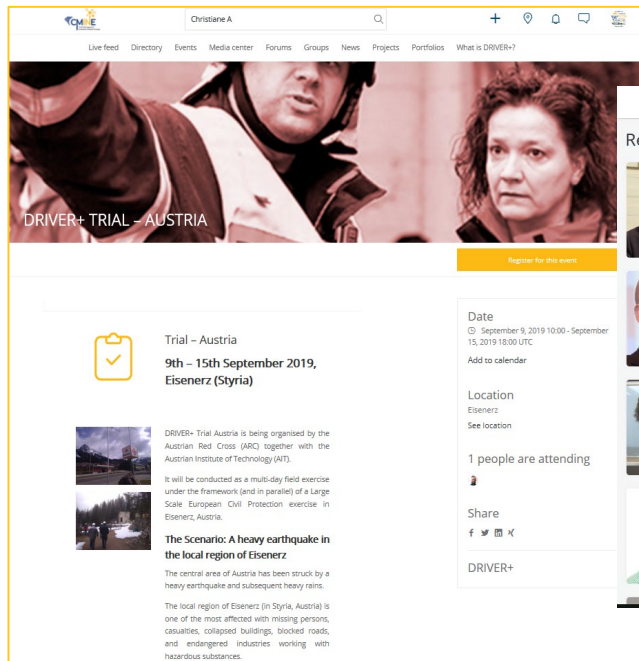

# CROSS-CUTTING ACTIVITIES

- Standardisation
- Competition “Top 3 Innovative Solutions in Crisis Management 2020”
  - identify crisis management solutions with highest innovation potential
  - Deadline for submission via POS – 12 January 2020
  - Announcing results – 29 January 2020
  - Presentation at the DRIVER+ Final Conference – Brussels, 19 Feb 2020
- CMINE is open for other ideas

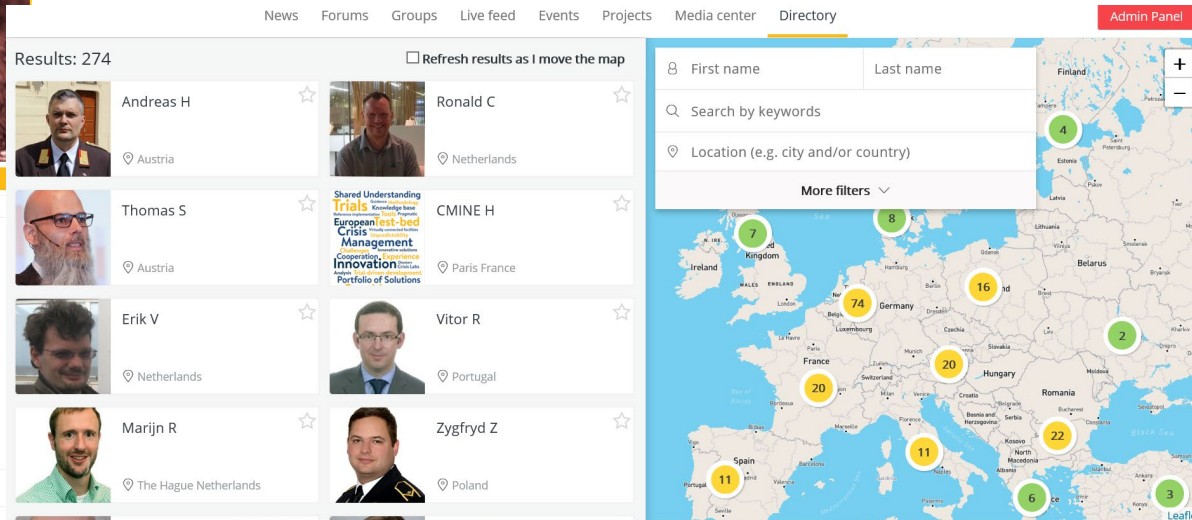

# GLIMPSE INTO CMINE

## Events

The screenshot shows the CMINE website interface. At the top, there is a search bar with 'Christiane A' entered. Below the search bar is a navigation menu with links for Live feed, Directory, Events, Media center, Forums, Groups, News, Projects, Portfolios, and What is DRIVER+?. The main content area features a large image of a person in a helmet with the text 'DRIVER+ TRIAL - AUSTRIA' overlaid. Below the image is a 'Register for this event' button. To the right, there is a sidebar with event details: 'Trial - Austria', '9th - 15th September 2019, Eisenerz (Styria)', and a description of the event. The description mentions that the trial is organized by the Austrian Red Cross (ARC) and the Austrian Institute of Technology (AIT), and is a multi-day field exercise under the framework of a Large Scale European Civil Protection exercise in Eisenerz, Austria. It also notes that the central area of Austria has been struck by a heavy earthquake and subsequent heavy rains, and that the local region of Eisenerz (in Styria, Austria) is one of the most affected with missing persons, casualties, collapsed buildings, blocked roads, and endangered industries working with hazardous substances.

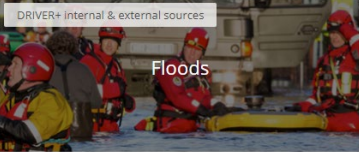

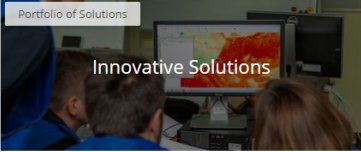

## Directory

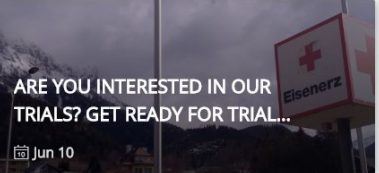

The screenshot shows the CMINE website directory page. At the top, there is a navigation menu with links for News, Forums, Groups, Live feed, Events, Projects, Media center, and Directory. An 'Admin Panel' button is visible in the top right corner. The main content area displays 'Results: 274' and a 'Refresh results as I move the map' checkbox. Below this is a grid of member profiles, each with a photo, name, and location. The members listed are: Andreas H (Austria), Ronald C (Netherlands), Thomas S (Austria), CMINE H (Paris France), Erik V (Netherlands), Vitor R (Portugal), Marijn R (The Hague Netherlands), and Zygfrzyd Z (Poland). To the right of the list is a map of Europe with numbered markers indicating the location of each member. The markers are: 4 (Finland), 7 (Kingdom), 8 (Germany), 16 (Hungary), 20 (France), 20 (Germany), 11 (Spain), 11 (Spain), 6 (Czech Republic), 2 (Hungary), and 3 (Lebanon).

# LOOKING AHEAD

- Termination of DRIVER+ in April 2020
- Ambition of a long-term, largely independent and self-driven platform and a lasting effect of DRIVER+ results for society and the Crisis Management community
- Currently exploring adoption of CMINE by various European and global actors, including Centres of Excellence; Financing for supporting the platform guaranteed for the next 2.5 years
- Carefully expanding to cover related fields
- 'Online home' for related networks (specialised; regional, global, inter-governmental)

THANK YOU FOR YOUR  
ATTENTION!
